**Petition to Make Application When an Inventor
Cannot Be Reached Under 37 C.F.R. § 1.47(a)**

Sir:

It is respectfully requested that the United States Patent and Trademark Office ("USPTO") grant this Petition under 37 C.F.R. § 1.47(a), and accept the submission of the executed declarations of the joint inventors John Cronin, Nancy Edwards, Justin Kunz and John Anthony Singarayar with the payment of the \$130 surcharge, as being responsive to the Notification of Missing Requirements under 35 U.S.C. § 371 ("Notice") received in the subject application. The remaining joint inventor, Mark Burrows, could not be found after diligent efforts were made to locate Mr. Burrows, as set forth in the attached Declaration of Courtney Lightfoot ("Declaration").

Referring to the Declaration, Ms. Lightfoot, an employee at ipCapital Group, Inc. ("ipCapital"), where Mark Burrows had been an employee until July 2, 2004, in response to requests by the undersigned attorney, attempted to locate Mr. Burrows and have Mr. Burrows execute a declaration for the subject

application. (Declaration, paragraphs 1 and 2).

On June 22, 2007, Ms. Lightfoot sent a package, via overnight courier, addressed to Mr. Mark Burrows at 127 Liberty Drive, Newtown, Pennsylvania 18940. (Declaration, paragraph 3). This address is the last known address for Mr. Burrows, as listed in the human resource records of ipCapital. (*Id.*). The package contained a declaration and power of attorney for the above-identified application and a cover letter instructing Mr. Burrows to execute the enclosed declaration. (*Id.*)

On June 25, 2007, Ms. Lightfoot accessed the courier's online package delivery status information and found that the package could not be delivered because the address was incorrect. Copies of the shipping label for the package and the delivery tracking information are attached as Exhibit A to the Declaration. (Declaration, paragraph 4).

In addition, on June 22, 2007, Ms. Lightfoot attempted to contact Mr. Burrows at his last known telephone number as listed in the human resource records of ipCapital. (Declaration, paragraph 5). After Ms. Lightfoot dialed the number, a recorded message stated that the number had been disconnected. (*Id.*).

Also on June 22, 2007, Ms. Lightfoot attempted to locate Mr. Burrows by conducting electronic searches on the Internet. First, Ms. Lightfoot searched the Google website for Mark Burrows, reviewing the search results for any references to "ipCapital" and "patents." (Declaration, paragraph 6). The search results, however, did not reveal a "Mark Burrows" with such descriptive

information. (*Id.*) Further on June 22, 2007, Ms. Lightfoot searched the White Pages website for Mark Burrows, once again reviewing the search results for references to "ipCapital" and "patents." (Declaration, paragraph 7). Of the search hits, one search hit listed a "Mark Burrows" having the same address as the last known address for Mr. Burrows listed in the human resource records of ipCapital. (*Id.*)

Thus, it is respectfully submitted that a diligent effort was made to locate Mr. Burrows, and that despite such effort, Mr. Burrows could not be located. Accordingly, the USPTO should grant this petition under 37 C.F.R. § 1.47(a) and accepted the enclosed, executed declarations of all of the inventors except Mr. Burrows, with the surcharge fee, as satisfying the requirements of the Notice. The Examiner is invited to telephone the undersigned if it is believed that further discussion would help to advance the prosecution of the present application.

Respectfully submitted,

WRITTEN OPINION OF THE

International Application No.

Box No. I Basis of this opinion

1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.
- ☐ This opinion has been established on the basis of a translation from the original language into the following language _____, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).
2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
- a. type of material
- ☐ a sequence listing
- ☐ table(s) related to the sequence listing
- b. format of material
- ☐ in written format
- ☐ in computer readable form
- c. time of filing/furnishing
- ☐ contained in international application as filed.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority for the purposes of search.
3. ☐ In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
4. Additional comments:

WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY

International application No.
PCT/US04/20387

Box No. V Reasoned statement under Rule 43 bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims <u>1-15</u>	YES
	Claims <u>NONE</u>	NO
Inventive step (IS)	Claims <u>1-15</u>	YES
	Claims <u>NONE</u>	NO
Industrial applicability (IA)	Claims <u>1-15</u>	YES
	Claims <u>NONE</u>	NO

2. Citations and explanations:

Claims 1-15 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest the training unit can be accessed to generate a sound output constituting a normal version of the content and a modified version of the content amplified by the corresponding amplification factor, as claimed in Claims 1, 3, 12 and 14; and the respective pairs of the training units are stored on the media such that a normal version and a modified version of the word included in a pair of the training units can be generated as a sound output, as claimed in Claim 7.

Claims 1-15 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.

NOTES TO FORM PCT/ISA/220 (continued)

The letter must indicate the differences between the claims as filed and the claims as amended. It must, in particular, indicate, in connection with each claim appearing in the international application (it being understood that identical indications concerning several claims may be grouped), whether

- (i) the claim is unchanged;
- (ii) the claim is cancelled;
- (iii) the claim is new;
- (iv) the claim replaces one or more claims as filed;
- (v) the claim is the result of the division of a claim as filed.

The following examples illustrate the manner in which amendments must be explained in the accompanying letter:

1. [Where originally there were 48 claims and after amendment of some claims there are 51]:
"Claims 1 to 29, 31, 32, 34, 35, 37 to 48 replaced by amended claims bearing the same numbers; claims 30, 33 and 36 unchanged; new claims 49 to 51 added."
2. [Where originally there were 15 claims and after amendment of all claims there are 11]:
"Claims 1 to 15 replaced by amended claims 1 to 11."
3. [Where originally there were 14 claims and the amendments consist in cancelling some claims and in adding new claims]:
"Claims 1 to 6 and 14 unchanged; claims 7 to 13 cancelled; new claims 15, 16 and 17 added." or
"Claims 7 to 13 cancelled; new claims 15, 16 and 17 added; all other claims unchanged."
4. [Where various kinds of amendments are made]:
"Claims 1-10 unchanged; claims 11 to 13, 18 and 19 cancelled; claims 14, 15 and 16 replaced by amended claim 14; claim 17 subdivided into amended claims 15, 16 and 17; new claims 20 and 21 added."

"Statement under Article 19(1)" (Rule 46.4)

The amendments may be accompanied by a statement explaining the amendments and indicating any impact that such amendments might have on the description and the drawings (which cannot be amended under Article 19(1)).

The statement will be published with the international application and the amended claims.

It must be in the language in which the international application is to be published.

It must be brief, not exceeding 500 words if in English or if translated into English.

It should not be confused with and does not replace the letter indicating the differences between the claims as filed and as amended. It must be filed on a separate sheet and must be identified as such by a heading, preferably by using the words "Statement under Article 19(1)."

It may not contain any disparaging comments on the international search report or the relevance of citations contained in that report. Reference to citations, relevant to a given claim, contained in the international search report may be made only in connection with an amendment of that claim.

Consequence if a demand for international preliminary examination has already been filed

If, at the time of filing any amendments and any accompanying statement, under Article 19, a demand for international preliminary examination has already been submitted, the applicant must preferably, at the time of filing the amendments (and any statement) with the International Bureau, also file with the International Preliminary Examining Authority a copy of such amendments (and of any statement) and, where required, a translation of such amendments for the procedure before that Authority (see Rules 55.3(a) and 62.2, first sentence). For further information, see the Notes to the demand form (PCT/PEA/401).

Consequence with regard to translation of the international application for entry into the national phase

The applicant's attention is drawn to the fact that, upon entry into the national phase, a translation of the claims as amended under Article 19 may have to be furnished to the designated/elected Offices, instead of, or in addition to, the translation of the claims as filed.

For further details on the requirements of each designated/elected Office, see the *PCT Applicant's Guide*, Volume II.
